

Secondhand Smoke Protections in Tribal Communities

Mission and Core Values

To provide commercial tobacco secondhand smoke awareness and resources to New Mexico tribal communities, improving health outcomes.

Respect, Culture, Family Responsibility to Community, Humility, Health, Love, Empowerment, Sustainability, and Community

Community Success

Jicarilla Apache

Health & Wellness Program Dulce, NM

The Keres Commercial Tobacco Outreach team and staff members of the **Jicarilla Apache Health & Wellness Program**, along with the local "Jicarilla Chieftain" newspaper staff were able to **join together** for a **half day training**. The **topics presented** were related to **commercial tobacco prevention, secondhand/ thirdhand smoke protections, and emerging tobacco products**. Participants were able to work in groups for a brainstorm activity which initiated dialogue for **empowering policy change** to help with community spaces and commercial tobacco awareness. At the conclusion of the training participants were able to earn 3 continuing education units from the New Mexico Department of Health Office of Community Health Workers.

Manager of the Jicarilla Health & Fitness Center, Michelle, commented, "Thank you Jovian and Tee for coming up to Jicarilla and sharing your knowledge. It brought out a lot of conversation among my staff which is a good thing".

Kudos to Jicarilla Apache Health & Wellness Program and Jicarilla Chieftain for taking the initiative towards commercial tobacco prevention for their community!
